- **Generative AI & Productivity:** Claude, ChatGPT, Gemini, Amazon Quick Suite, Kiro, Prompt Engineering, AI-assisted Workflows, Power Automate
- **Technical & UI/UX:** Python, SQL, Power Apps, Figma, Bootstrap, HTML, PHP, Application & Web Design
- **Languages:** English (TOEIC: 705) | Japanese (TNI Ability Test: Passed N4)

Experience

Com7 Public Company Limited (BOI Project) — Bangkok, Thailand
IT Support / Teaching Assistant — AWS — Jul. 2026 – Dec. 2026
- Supported the Education and Enterprise team on AWS-related work and day-to-day technical requests.
- **Main duty:** Teaching Assistant for the *Architecting on AWS* bootcamp (Com7 Business × BOI STEM++) at Koon Hotel.
- Debugged issues live during class so instructors and students never lost momentum.

A-HOST Company Limited — Phaya Thai, Bangkok
Internship - Assistant Software Professional — Dec. 2025 – Mar. 2026
- Built responsive UIs in Power Apps for internal workflows and configured Power Automate flows to optimize efficiency.
- Wrote and tuned SQL stored procedures to improve data retrieval performance.
- Ran manual functional tests, logged defects, and collaborated with the dev team to verify fixes and ensure system stability.

Thai-Nichi Institute of Technology — Bangkok, Thailand
Teaching Assistant — 2024 – 2025
- **Java (OOP) & C# (Multimedia):** Guided students, provided technical support, and debugged syntax/logical errors in laboratory sessions.
- Proctored mid-term and final examinations to ensure academic integrity and managed classroom IT environment readiness.

Projects

SignShop POS - Back-Office System for a Sign & Print Shop (SME) — 2026
Role: Developer (Next.js 15, React 19, TypeScript, Supabase, Tailwind 4) — Personal Project
- Built an AI-assisted back-office to replace SMEMOVE: walk-in orders, Kanban job tracking, and 7 product types with configurable pricing.
- Handles deposits, 3 VAT modes, and printable A4 quotations, invoices, and receipts.

iExpense - Money Flow (Thai Income & Expense Tracker) — 2026
Role: Developer (Vue 3, TypeScript, Vite, Supabase, Capacitor) — Personal Project
- Built an AI-assisted Thai income/expense app with Supabase Auth, Row Level Security, and interactive dashboards.
- Deployed on Vercel and packaged as an Android APK via Capacitor and GitHub Actions.

SIT Global Project-Based Learning — Feb. 2025
Role: Participant (Unity, C#) — International Collaboration
- Built an interactive VR game in Unity with Japanese exchange students in an agile sprint, using English throughout.
